

SEEN, HEARD
AND TOLD
BY THE EDITOR

We cannot but speak the things which we
have seen and heard.—Acts 4:19.

It is always nice to have Mrs. Sam Gilon send us so many fine items, but it is particularly nice this week to have so many pleasant things from her. It seems about all we hear here in Grenada are sickness and deaths.

Roy Doak says he is still getting checks, following that big piece about Old Fellows Cemetery in the GCW. This money, over and above the cost of the fence, will be used to improve the roadways in and to the cemetery. I saw him taking John McEachin out to the cemetery Monday, seeking to enlist aid from the city's street forces. Ben Sanders, too, would help, if asked to do so.

Dr. L. L. Rayford, Sr. and Dr. L. L. Rayford, Jr. left Monday night to attend the national meeting in Macon, Ga.

Corporal Harold Strider of Camp Gordon, Ga., airmails the information that the famous Pvt. David Schine aint in Strider's squad, but was currently directing traffic at the golf tournament that day. However, Strider and that (in)famous soldier are next door to each other, he reports.

I have been hearing a lotta talk about 'so many' Negroes registering in Grenada County. I made no exhaustive search of the books, but I did look at the books and will guess that only about 100 have registered there and most of those registering are Neep teachers. After all, folks, a qualified Negro has a perfect right to register and vote. Registering by Negroes is just beginning and it is likely that, ere the time of the main election in 1955, hundreds will be qualified to vote.

Like daughter, like mother. Both Melba Darras and her mother, Mrs. J. S. Anderson, have beautiful flowers in their gardens.

Congratulations to Velma Lloyd Lott of 352 Pecan St. for winning a \$25 prize in the Lion Oil Scholarship Fund essay contest. Miss Rosemary Thompson of GHS won \$25 because she was Velma's sponsor.

Long ago, I gave up ever seeing the supervisors voluntarily doing away with some of the inequities inherent in the '3 counties in 1 county' system in Grenada County, but I thought surely that, when the roads were measured (as they were last month by Dick Smith) it would dawn on the 3 supervisors who have BIG BEATS (I refer to Beats 1, 2 and 5) that each of them would get MORE money. There would be corrective action. The measurement disclosed that Beats 1, 2 and 5, each has about 100 miles of roads, and that Beats 3 and 4 have together just about 100 miles. Will the supervisors, acting as a body, let the old arrangement of one 5th of the money to each beat, stand?

I would like to do so, but just can't give supervisors too much credit for doing things from an UNselfish viewpoint, but thought, surely, something selfish would appeal to them, in dividing the 'car' money according to the road mileage in each beat could so appeal.

I repeat what I said last week: that the folks should keep Albert Clark who manages to get 20 percent of the 'car' money to maintain 25 miles of road, which is 10.75 percent of the whole number of roads in the whole county. To folks of Beat Albert should be a 'gem of purest serenity.'

I just wonder if the supervisors have thought of this dodge: impose a 10 mill levy for county-wide roads, then divide the proceeds 5 ways. They are empowered to do such. But, why stop at 10 mills. The supervisors could just as easily make it 15, 20, or even 50. That supervisors are the most powerful officers in the state, no idle statement. Look at Grenada County!! Or, for that matter, 5, 10, 15 or 20 mills on Beat One, could it up among themselves. They COULD do that.

Throughout the years I have had to say about the injustices inherent in our county's system - then said I was not going to say any more, realizing the futility of trying anything. I may change my mind and say a heap more about the

ED BASS DIED TUESDAY IN SHREVEPORT

Native Of Kentucky; Buried In Grenada Wednesday

Edwin L. Bass, longtime resident of Grenada, died in a Shreveport, La., hospital Tuesday morning, April 12, 1954 and was buried in Grenada Wednesday afternoon.

Mr. Bass was a native of Russellville, Kentucky, where one sister continues to live. Most of his life here was spent as a traveling salesman for wholesale drygoods items. At the time of his death, he was salesman for the Stevens Manufacturing Co. of Nashville, Tennessee.

His first wife, a Miss Richardson, daughter of an old Grenada County family, died many years ago. His second wife, the former Mrs. Winnie Vance Smith, lives in the home on Snider Street, Grenada.

Ed Bass' talents as a salesman were employed by fellow citizens of Grenada, in various local 'drives', such as Cancer Drive and Red Cross drive, where Ed usually helped put such 'drives over the top.'

Mr. Bass was in his mid-60s, according to our best information.

Services at Garner Funeral Home were conducted Wednesday afternoon, preceding burial.

His wife, a daughter, Mrs. Denman Crowe of Shreveport, a daughter, Mrs. Virginia Jane Perry of Washington, and two sisters of Russellville, Kentucky, survive and, to them, the GCW extends sincere sympathy.

FAREWELL, DEAR GRAYSPORT

(By Sadie Criss McClure Dailey)

Dear GraySPORT, how I loved you Time marches on,
The old town is gone—
My hometown, as it used to be;
Not a tree or a house
Or a sign thereabout,
Was left for one to see.

But in mind you lie
Under the same old sky
Out there, still a hallowed place;
Your outstretched arms,
In memory, holds charms
That time will never erase.

I grieve, I sigh,
With tears in my eye,
As I bid you a fond adieu;
I will see you in dreams,
In the dying sunbeams.

Frank Minter, Negro Teacher,
Buried Near Cascilla

Frank Minter, 53, a Negro teacher of rural colored schools in the Cascilla area, was buried under Masonic auspices, in the Pine Hill cemetery Sunday.

He spent most of his life teaching the younger members of his race, and possessed many friends among both races.

situation, as time passes.

We have been hearing that Nell J. Carothers, Andrew's brother, is mighty sick in his home in Birmingham.

As volunteer construction superintendent of the new building on Growling Green, Louie Friedman has been mighty negligent this week, leaving all of the superintendency to Sam Simmons, Roscoe Chapuis, Joe Eddie, me and Louis Marascalco.

The I. C. can call the train that will leave Grenada at 4:55 P. M. for the North the Louisiana if it wants to but Grenada will always know this returned train as 'No. Four'.

And, by the way, W. E. Jackson is in the hospital with what may be a serious ailment.

John Willis Jr. and Clovis Hardin Jr., both of Grenada have been honored by appointment as aide-de-camp of the national VFW commander.

And, by the way, the local VFW unit installed its new officers Saturday night, with fitting ceremonies.

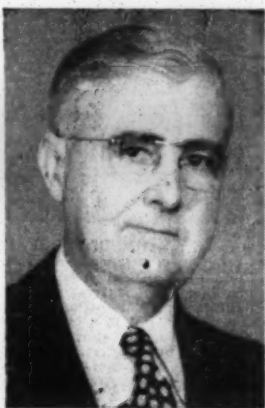

While nothing official has come from the principals in the matter, the presence of Orley Lilly back at the Ford place on Commerce Street lends credence to the report that Lilly has taken the place over.

HEART ATTACK FATAL TO H. B. BENTHAL

Head Of Grenada Bank Died Sunday

Henry Bruce Benthall, 63, president of Grenada Bank, died suddenly, following a heart attack, Sunday night, April 4, 1954.

Mr. Benthall, a native of Canton, Miss., was born in Canton and began his banking career at Canton with the Canton Exchange Bank. In 1932 he resigned his vice-presidency with the Canton bank and began work with the RFC in New Orleans. From the RFC he resigned in 1943 and became executive vice-president of Grenada Bank, a position he held until April, 1949 when, following the death

of President Ben C. Adams, Mr. Benthall became the bank's president, a position he held at his death.

Mr. Benthall is the fourth president of Grenada Bank, the other presidents being J. W. Griffiths, J. T. Thomas and B. C. Adams, all of whom died in office.

In 1923, Mr. Benthall married Miss Hattie Woodham of Ellisville, Miss. Benthall survives. Devotion to his wife was one of his many sterling characteristics. He was modest and unassuming, but firm in handling the bank's affairs. He was always neatly dressed and hardly ever indulged in idle talk.

Mr. Benthall was a member of the Presbyterian Church of Grenada. He is one of Governor Hugh White's colonels of Grenada County. He was a member of Rotary, of the Masons and of Wahabit Temple, of the Shrine of Jackson. He was a member of the Chamber of Commerce, one of the organizers and directors of the 1st Federal Savings and Loan Association of Grenada. He helped organize Grenada Country Club.

One of the capstones in his banking career here was about to be set when he died. Reference is made to the reconstruction of Grenada Bank, now just about to be started in earnest.

Funeral services were held at the Presbyterian Church Tuesday afternoon, with Rev. W. Taylor Clarke, pastor, in charge. Interment was had following services in the church, in Woodlawn Memorial Park in Grenada.

Garner Bros. Funeral Home had charge of arrangements.

Surviving him are his widow, and three sisters, Misses Maggie, Elizabeth and Ethel of Canton, and one brother, Robert Benthall of Cameta, Miss.

Active pallbearers were: J. B. Perry, O. R. Lilly, G. M. Moore, J. H. Mitchell, B. E. Kimbrough and Dudley Crawford. Honorary pallbearers were the directors of Grenada Bank and the cashiers of the branch banks of Grenada Bank system.

S. K. McCORKLE DIES IN MEMPHIS SUNDAY

Funeral Services In Grenada; Buried In Carrollton Monday

Samuel Kimbrough McCorkle, 58, of Grenada died in Kennedy veterans hospital in Memphis Sunday, April 11, 1954 after an illness of several weeks.

Mr. McCorkle was born in Kyle, Texas on October 23, 1895 and was the son of Jessie Lee and Buelah Kimbrough McCorkle. He and his wife, the former Miss Sara Craig of Madison, Mississippi, were married about 30 years ago.

Sam was an active Mason belonging to all Masonic bodies up to and including the Mystic Shrine. He was a veteran of the 1st World War and was a member of the American Legion and of the 49 & 8, in which two bodies, he held many offices and in which he took great interest. He was a member of All Saints Episcopal Church and was one of that church's vestrymen at the time of his death. At the time of his death he was an inspector for the Mississippi Motor Vehicle Comptroller of Jackson, but he spent much time in looking after farming interests, in which he and family had vital parts. His interests also included Eastern Star work and he held many important offices in this body. Above all, he was interested in his home, his wife and his four daughters. The family has lived at their home on College Blvd. in Grenada since August, 1929.

Immediate survivors are his widow; four daughters, Mrs. Margaret Ham of Pensacola, Fla., Mrs. Dorothy McCorkle of Grenada, Mrs. Louise Pilgrim of Jackson and Mrs. Eloise McCrairie of Jackson; and two grandchildren.

Also surviving him are a sister, Mrs. Laura Cole of Ashville; an aunt, Mrs. Lovella Powell of Carrollton; two uncles, Robert Kimbrough of Lexington and J. H. Kimbrough of Indianola; and five cousins Kenneth Kimbrough of Memphis, Sam Kimbrough of Greenwood and James Kimbrough of Clarksdale and Mrs. Marvin Wiggins of Atlanta and Mrs. Robert Bryant of New York.

Funeral services were held at the All Saints Episcopal Church in Grenada at 2 Tuesday afternoon, with Rector J. M. Frye in charge. Burial in charge of Masonic members was had in Evergreen Cemetery in Carrollton, following the church service in Grenada.

Active pallbearers included Orman Kimbrough, R. J. Stoker, Frank Chambers, William Wright, Harry Rayburn, J. L. Townes and J. B. Dubois and Marshall Perry.

Honorary pallbearers included Guy McCullam, John Lake, Joe Neely Sr., Louis Weir, Roy Doak, Dr. Sam Caruthers, Dr. J. K. Avent, Dr. H. C. Ricks, M. H. Brooks, Gene Beard, Jack Sanderson, Billy Semmes, William Winter, W. J. Sherwood, Ward Alexander, L. D. Boone Sr., J. H. Biddy, Guy Land, Lyon Brandon, Bob Morrow, Johnnie Powell, Jim Keeton, J. Y. Smith, Sr., William Neal, Charles Calhoun, Jack Butler, Walter Dailand and John Liles.

May we join others in expressing our sincere sympathy?

BRUISING A GOOD METHOD FOR COOKING PORK

There is a method in which pork chops can be cooked in a heavy skillet with a tight fitting cover. A small amount of oil is added, the skillet covered, and the meat cooked slowly until tender and juicy. And cooking is better than the conventional method of broiling or grilling. This method is excellent for pork chops, and they may also be baked satisfactorily. Pork chops will be served frequently by a thrifty cook, and not just loin chops, but also the rib chops and the shoulder chops, usually known as pork steaks. A selection of interesting ways to cook pork chops is included with this article, so that the buyer will be able to use more cuts of pork.

Pork is not only the richest of meats in B vitamins but it is also a source of complete high quality protein, essential minerals and food energy.

Braised Loin Pork Chops
2 Tablespoons flour
1/8 teaspoon pepper
1/8 teaspoon marjoram
1 tablespoon bacon drippings
1/2 teaspoon salt
1/8 teaspoon thyme

4 1 inch thick loin pork chops
Combine flour and seasonings. Dredge pork chops in flour mixture. Melt bacon drippings in a heavy skillet with a tight fitting cover. Brown pork chops slowly and thoroughly on both sides. Reduce heat. Add enough liquid to barely cover the bottom of pan. Cook at a low temperature until tender, adding more liquid when necessary.

Stuffed Baked Rib Pork Chops
1 1/2 inch rib pork chops
1 tablespoon finely chopped onion
1/2 cup soft bread crumbs
1/8 teaspoon poultry seasoning
2 tablespoons bacon drippings
1/4 cup dried celery
1/2 teaspoon salt
1/2 cup water

Have butcher slit a pocket in one side of chops. Melt bacon drippings in frying pan. Add onion and celery; cook until onion is tender but not brown. Combine with bread crumbs, salt and poultry seasoning; mix well. Stuff dressing into pockets; season chops with salt and pepper. Place chops in frying pan; brown slowly and thoroughly on both sides. Place in casserole. Add water to drippings in skillet; stir to dissolve brown particles. Pour over chops. Cover; bake in a moderate oven (350° F.) 1 hour.

Croole Pork Steaks
2 tablespoons bacon drippings
1/4 cup finely chopped onion
1/4 teaspoon Tabasco
1/4 teaspoon salt
1/4 cup finely chopped green pepper

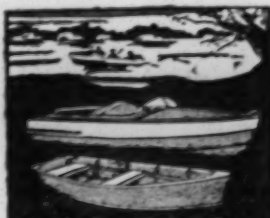

1 1/4 cups canned tomatoes
1/4 teaspoon sugar
1 1 inch thick blade pork steaks
Melt bacon drippings in frying pan. Add green pepper and onion; cook until onion is tender but not brown. Remove from pan; combine with tomatoes and seasonings. Place chops in frying pan; brown slowly and thoroughly on both sides. Season with salt and pepper. Add sauce. Cover and cook slowly for 1 hour or until very tender.

It is true, of course, that there is a rain deficiency in our area, and, consequently, not much water to fill what we call the "delta" lakes in our section, and not let overflow water, which has always kept up such lakes, these lakes. Fishing has been reported as being very poor in such bodies of water, and it will continue to be poor until overflow water DOES

get into them, if ever again. As a matter of fact, if these dams are completely successful in their stated purpose, overflow water never will get into these lakes again and they will fill up, or grow up with weeds and saplings. When one monkey with God Almighty's water, there is no telling what will come.

Starting the Day with an Hour's Rest!

It's about an hour from his home to his office—but he doesn't think of it as a drive at all.

He just settles back in the deep, comfortable seat—rests his hand on the inviting wheel—looks out over the hood in the general direction of the office—and starts to relax.

Comes first, the ten-mile stretch in the country.

If the car were standing still, it could not be smoother or softer or quieter—as it loafs over the broad, winding highway. There's only the faint sound of the wind, plus the receding trees and posts and buildings, to give him a sense of movement.

Almost before it begins, it seems, the ten-mile stretch is over—and a sign announces the city's limits. The soft pressure of his foot shifts from accelerator to brake—and the big car settles down easily, smoothly and quickly to the prescribed speed.

And then begins the real wizardry of Cadillac performance. Stop and go—in and out—roll and creep . . . all regulated with the slightest touch of toe and hand. Insofar as the driver is concerned, it's just as easy as the open road—a little slower, of course, but just as calm and relaxing.

And maybe a little bit nicer, in one notable respect—for now there are drivers all about him—stealing glances at his beautiful car, and wondering who's the fortunate person whose name is on the title!

What a car—for highway or street! Owners say the hours behind its wheel are among the finest hours of the day—restful, relaxing and inspiring.

If you haven't as yet driven a 1954 Cadillac—you've been missing something wonderful! Better come in soon—for the most revealing hour you ever spent behind the wheel of a motor car.

Bride Elect Is Honored

The Gore Springs School cafeteria was the scene of a delightful pre-nuptial courtesy April 9th when Mesdames Albert Hayward, Arnold Dyre, and Joan Peterson complimented Miss Norma Rae Trusty, bride elect with a miscellaneous shower. Attractive arrangements of spring flowers were used at vantage points throughout the room.

The honoree chose to wear for this occasion a brown butcher linen with trimmed beige bolero. She wore gold costume jewelry and a corsage of white carnations.

The guests were entertained in 2 contests: 'Puzzled Hearts' and 'Flower Romance' and resulted in Mrs. Frank James, Mrs. Hiram Davis, Mrs. Jim Moore and Mrs. J. E. Gray, Sr. receiving prizes which they presented Miss Trusty. Near a table laden with beautifully wrapped packages sat the bride elect who removed the ribbons and tissue and displayed each gift to those who so graciously honored her.

The refreshments of fruit stuffed angel food cake with mints and coffee was served to the 32 guests.

The out of community guest was Mrs. Talmadge Bloodworth of Grenada.

H. D. Club Meets

The Gore Springs H. D. Club met Thursday in the club room with Mrs. Homer Trussell, Mrs. Jack Clanton and Mrs. Birl Williams as hostesses.

Members answered roll call by telling 'The Spring Tonic My Mother Gave Me.'

The educational topic based on conservation of land and water was given by three 4-H club members and their leader Mrs. Eleanor Rook. The subject 'Sojourners on the Land' was clearly brought out in the scripture readings, Gen. 3:8-15 and Psalms 104:14; and in the interpretations by these truths. Girls participating were Marjorie James, Christine Bowen and Betty Ann Dyre.

A demonstration on rooting cuttings was given by the garden leader, Mrs. T. P. Haile.

The recreation led by Mrs. Annie Tharpe resulted in Mrs. Hiram Davis receiving a prize as winner of a humorous game. The hostesses served a salad plate with iced drinks.

Rev. E. N. Carter of Calhoun City was the guest on Monday of Rev. and Mrs. Gwin H. Middleton.

Mrs. Bertha Williams and Alice Williams attended funeral services held in Garner Funeral Home Wednesday for Mrs. Lude Williams. Mrs. Williams died Tuesday at the home of her daughter Mrs. Mary Holcomb in Holcomb.

Mr. and Mrs. D. M. Trussell spent Friday in Jackson. On Sunday they were guests of Mrs. Blanche McCormick and Miss Jetty Trussell in Coffeeville.

The Providence Vacation Bible School opened Monday, April 12th at the church.

Mrs. Junior Worsham is directing the studies. She is assisted by the Pastor, Rev. Ralph Atkinson. Forty four students are enrolled. Classes are being held from 9 to 11 a. m. daily with commencement night on Sunday, April 18th at 7:30 o'clock. The public is invited to attend.

Mr. and Mrs. Speck Davis and children of Grenada were Tuesday night supper guests of Mr. and Mrs. Hiram Davis and family.

Rev. Ralph Atkinson of Mississippi College, pastor of Providence Church is the guest of Mr. and Mrs. Arnold Dyre while Vacation Bible School is in progress.

Mr. and Mrs. W. M. Gresham of McCool visited Mr. and Mrs. E. L. Trusty, Sr. during the weekend and attended the marriage of their grand daughter Miss Norma Rae Trusty to Mr. Paul McElroy at Central Baptist Church in Grenada on Sunday afternoon.

Roadside Park at Gore Springs

The Gore Springs Home Demonstration Club sponsored a roadside park, some 10 miles east of Grenada on Highway 8. This park is one of the system of Magnolia Roadside Parks, which is being built by the Highway Department in cooperation with the various clubs throughout the state. The park has plenty of drive-ways and parking space, with four picnic tables and two fire places, and can accommodate quite a few

people at one time. And this is an invitation to all people traveling and living in the neighborhood to make use of this park.

The building of this roadside park was brought about through the faithful service of Gore Springs Home Demonstration Club president, Mrs. Addy James and her appointed committee working with A. T. Holmes, landscape engineer, Miss Highway Dept. and Mr. and Mrs. T. P. Haile who donated the land in memory of their mother, Mrs. Alice Haile.

Both errors made in the Jackson, Miss. office and corrected through John G. Gray, Grenada County Supt. of Education.

Friendship H. D. Club Met

Friendship Home Demonstration Club met Wednesday, April 7th in the home of Mrs. Jim Gentry.

The hostess conducted the devotional.

Mrs. Ted Coats, the Club President, introduced the guest speaker, County Agent C. O. Sennett. He gave an interesting talk on the ABC's of soil conservation.

Miss Elder reminded members to prepare to enter the Kerr Canning

Contest, to attend the District Council Meeting at West Tallahatchie H. School the last of this month and to plan to go on the Better Homes Tour.

Mrs. Jim Gentry, garden leader, gave an interesting demonstration and discussion on how to root cuttings.

After enjoying delicious cake and sherbet served by the hostess, the meeting was adjourned to meet in May with Mrs. M. E. Gurley.

The Gerard Building, now occupied by Brister's had its face lifted with an attractive new front.

One of Homer Williams' dreams coming true. His theory that gam such as wild turkeys, will spread become true. He planted a bunch turkeys some time and some will in the area close to his camp. Doub Cypress, watched them, killed coo in the area, and let them multipl and they HAVE multiplied in a ve satisfactory manner. Today, the are bunches of wild turkeys scatte ed all over the wooded area west - Oxberry, only a small part of ti laid belonging to Homer and his a sociates. Dear mom,
I'm writing by the
light of Dad's coal.

"Uncle George says the coal Dad mines is making electricity right here, hundreds of miles from home. On the way to his house I saw lots of coal trains. I never knew..."

Thus the son of a coal miner acquires fresh respect for his father's work. He learns, too, that coal's value begins, not when it comes from the ground, but after it has traveled far and burns, white-hot, to provide heat, light and power for millions of individuals and industries.

Back home from his trip, he will watch Illinois Central coal trains with fresh understanding of the partnership between coal and railroads—the partnership that furnishes most of America's power.

Coal and the Illinois Central have been partners ever since mines began dotting Mid-America. This railroad has had a hand in developing many coal fields and the marketing of their output. Doing this job efficiently and economically is one of the important ways in which we serve the people of Mid-America.

THE BIBLE SPEAKS

BY DR. KENNETH J. FOREMAN

Scripture: John 19:41-42, 20:21
Devotional Reading: 1 Peter 4:1-11

Our Living Lord

Lesson for April 18, 1954

TO SPEAK about Jesus as if he were simply a historical character is a mistake, said William Adams Brown. When other men die, their obituaries can be written. There is nothing to add to the tale of their life. Even in the case of the great and famous men about whom new books appear every so often, each biographer merely edits newly discovered material at the most. If he adds a chapter to other biographies, it is simply the record of a chapter hitherto unknown—but it adds nothing new to the facts, only to men's knowledge of the facts. With Jesus, as Dr. Brown points out, the case is altogether different. You could not write a "definitive," a lastword, biography about him even today, because he still lives and is active in the world. Jesus is not someone who was; that is not the whole truth. Jesus is. The message of Easter is not only that Jesus did not die forever, it is more that he lives forever, that he lives now.

Dr. Foreman

In the Church

The Church is called in the New Testament the "body of Christ." In a very real way, that is true. One contemporary theologian has put this in a startling way. He says that Christ and the church are the complete Christ, just as a man and his body together are the complete man. This may be putting it too strongly. But no thoughtful Christian will deny that without the church, without some church, Christ would be bodiless in this earth. Without the church he would be a "houseless wraith of deity," but with the church he has eyes, ears, hands and feet. This is not to say that any church is perfect; in the best of churches Christ walks lame and speaks in a murmur often hard to understand. Just as any musician would be hampered by a broken arm, so Christ is hampered by broken and self-seeking churches. Yet taking it all in all, Christ does live and speak and work through his church today. He is there in the sacraments, there in the message of truth and grace, there in the life and service of every church that ministers to men in his name.

In Men and Women

But the church does not exist apart from the men and women who are its members. (We mean real members, not just people whose names appear on the membership lists.) Christ lives again in every individual who loves him, is devoted to him and (to use St. Paul's memorable words) is "growing up in all things into Him." When St. Paul said, "I live, yet not I, but Christ liveth in me," he was saying only what countless Christians have said because they had discovered it was true. Christians less famous than Paul have known him in their lives. A man who had had a great deal of trouble with a certain temptation was asked one day by his pastor how he was getting along. "You know," the man replied, "I used to have a lot of bother from the devil and I didn't always get the best of him. But now when Satan rings, I just say, 'Lord Jesus, won't you answer the door?'"

At the Right Hand of God

The Apostles' Creed, which Christians in all lands know by heart, declares that Christ "sitteth at the right hand of God." By this the church has never meant that Jesus is spending eternity sitting down on a throne somewhere. What we mean is that Christ is not only alive on this small planet but that he lives and works with God. Just as in ancient times when a king held royal court, the seat on his right was reserved for his most trusted and most active personal representative, so Christ lives on in the presence of Eternal Power today, in ways that the heavenly glory hides from our sight. We dare not guess at all what he plans and does; but the Church is certain of one thing: he is praying for his people. "He ever liveth to make intercession for us." If it is a comfort to know of the prayers of any friend, how much more to know that the living Lord is praying for us! So on Easter Sunday the church sings—how can she help it? The flowers and the music are not to keep alive the memory of one who once upon a time rose again, but are in honor of one who lives now, in and above the church and the world.

HANDY DRYERS

As more women start using automatic dryers for the family washing it stands to reason that more women are becoming interested. And the questions they ask:

So here and now seems to be the place and time to answer some of those questions. The idea of letting an automatic appliance tumble the washing over and over until all the things are nice and dry is a fascinating one. No wonder there is plenty of curiosity over how a dryer takes over so pleasantly on all the work and worry and grief for which any clothesline can be blamed.

Is there any difference in the way you starch? Yes. Use two or three times the usual amount of starch. Be sure to remove excess starch in the wringing or water-removal. Make a complete dryer-load of starched things. It's best not to mix loads in any case. Keep together things which you know dry at about the same speed.

If you do not care to do this, take out the faster-drying articles as soon as they are ready to be ironed. Then let the dryer keep on running until the other things are ready, the ones which don't dry so fast.

One thing about being able to take out articles when they are ready for ironing is that you don't have to sprinkle them. They are evenly moist throughout. And the sprinkling can, and seats in some fabrics, drying them in a dryer, ready for ironing, ends that task.

Quilted mattress covers dry beautifully in your automatic tumbler dryer, soft and fluffy. Then are taken out before they are completely dry and "worked" back to the original dimensions. You know how such things do shrink up some in the washing.

The handling is a good deal the same for your blankets. You stretch them to the right length and width after the washing. Then start the drying. Take out the blanket before it is fully dry. Once again, "ease" it back to its rightful measurements. One peculiarity of wool is that its fibers lock together in washing and in dryer-drying, but it is a simple thing to finish up with the blanket as full-sized as ever before.

Most of the new synthetic-fiber fabrics with the various odd names dry quite fast, as you already know. In your dryer, consequently, it is best to keep these together and use just the brief drying time which is needed for them.

As in your washer, you can save time by keeping small articles together in a bag or pillow-slip. No "fishing" around for them. Sort loads. It has been said that three loads that have been sorted will dry in about the same time as two loads that were not.

No question about it, the dryer is a great convenience and possibly these little suggestions have shown you how very practical a dryer is, too.

Notice To Truck Dealers

Pursuant to Order of the Board of Supervisors of Grenada County, Mississippi, notice is hereby given that said Board will receive bids, up to and not later than 1:00 O'clock P. M., May 3, 1964, for one 2-ton truck cab and chassis, to be purchased by the County for the use of District One. Said Board will also receive bids, up to said time and date, for one used Ford truck, the surplus equipment of said District One, to be sold by the County to the highest bidder for cash or as part payment on said

equipment to be purchased. The Board reserves the right to reject any and all bids.

New strength and stamina! Lower upkeep costs!

New Chevrolet Trucks...

do more work per day... more work per dollar!

You save hours on the road. Thanks to new high-compression power, you can maintain faster schedules without driving at higher maximum speeds. Increased acceleration and hill-climbing ability let you save time where it counts.

You save time on deliveries. With new truck Hydra-Matic transmission, you save time at every delivery stop. And you can forget about clutching and shifting for good! It's optional at extra cost on 1/2-, 3/4- and 1-ton Chevrolet trucks.

You save extra trips. That's because of the extra load space you

get in the new Advance-Design bodies. New pick-up bodies are deeper, new stake and platform bodies are wider and longer. Also, they're set lower for easier loading.

You save with lower upkeep, too. Extra chassis strength saves you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

You save on operating costs. New power saves you money every mile! The "Thriftmaster 235" engine, the "Loadmaster 235" and

the "Jobmaster 261" (optional on 2-ton models at extra cost) deliver increased operating economy.

And your savings start the day you buy. In fact, they start with the low price you pay and continue over the miles. Chevrolet is America's lowest-priced line of trucks. It's also the truck that has a traditionally higher trade-in value.

Come in and see all the wonderful new things you get in America's number one truck. We'll be glad to give you all the money-saving facts.

Town Talk
BY
FED ROBINSON

People have written about the things they would do if they had their lives to live over again. Some have said they would do all the same things they have done, others have speculated on many different things they would do if they could live their lives over again. Well, recently on a homeward trip from Washington we came to the place where we were to set our watch back one hour to correspond with central standard time we have in this area, and there was a large group of us on the train having fun because our trip had been one of pleasure. Some one mentioned that we were about to recover one whole good hour of the past which we all could live over again, and the question was asked what shall we do with this new found hour? Of course one doesn't have too much choice of things to do while riding on a fast running train, but it was interesting to note the lack of thought on the matter among those who made up our party, except many expressed the regret to lose the hour already had rather than the joy of finding a new hour - one we could live all over again.

So, perhaps that's the way it is with us all. We thrill in the thought of the future, we are glad to see the hours, days, years, pass and always we expect the tomorrows to bring to us all the things we wish for and we look out upon each new day with keen anticipation hoping and yearning for better things than we have had in the past. It is well that is so. If you think of it a little you realize that living as a process of losing. We begin very early in life to lose things. We lose our teeth, our hair, and our youth steals away from us almost unnoticed. We lose jobs, friends, loved ones. Just losing something all the time. Oh, yes we are finders too, but always we lose the new things we find sooner or later. Nothing seems to be ours always, not even our lives. Well, then would we say life is just a losing game? No, we would not say that because there are some things we keep. We can keep our memories of persons and places we have known, we can keep our dreams and our hopes - for hope springs eternal in our breast.

Rogers Parker has recently returned from 'down home' at the vets hospital in Jackson.

Don't forget to mark up Paul Phillips who paid up sady.

There are about as many remedies for arthritis as there are sufferers from this trouble. Miss Mary Clark of Washington, who sent in her dues recently, sent her favorite remedy, and so did Mrs. Jake Whitaker. At present, I ain't doing nothing, just hurting.

Thanks to George M. Crowson, assistant to the President of the I. C., for a copy of the annual financial report of the 'Main Line of Mid-America.'

Don't tell me that an aggressive salesman can't sell anything. Pop Mayhan's boy, Odum, sold enough vacuum cleaners to win an all-expense trip to Washington recently.

LIGHTING TIPS
Building a new house? Then remember, if you want to enjoy the benefits of modern lighting no point along your baseboard line should be more than six feet from an outlet. Don't neglect to provide extra outlets in the bedrooms so that you can use your infrared heat and sunlamps, too, without disconnecting other lamps.

Save space and clutter by using a pair of wall lamps to light davenport located between windows, doorways or passageways. Modern new wall lamps which are as handsome to look at they are efficient when properly placed and wisely chosen are recommended in General Electric's new Tested Home Light Conditioning Recipe for reading when seated on a davenport or in an upholstered chair. Select wall lamps with top diameter of diffusing bowl approximately eight inches. Bottom of the shade should be about 15 inches across. Use the 30-100-150 watt three-lite or a 150-watt bulb in lamps with diffusing bowls. New style lamps which use the 150 watt R-40 bulb which requires no diffuser are also a good choice.

As the lamp cannot be moved away from the wall, you may have to move the davenport or chair a little to coincide with the following measurements:

Measure out from the center of the lamp shade (about six inches from the wall) 76 inches, then from this point measure 15 inches to the right or left at a right angle. Then, place the chair or sofa so that the center of your reading matter is at this point. The lower edge of the shade should be 48 inches above the floor.

Having difficulty keeping children enthusiastic over daily practice sessions at the piano? Improving the lighting may help to stimulate new interest. Good lighting makes music reading easier, relieves tension and makes the whole session more enjoyable. Best of all, when no time is lost straining to see, the whole affair is bound to go faster.

One of the easiest ways to light your piano is with a pair of torches.

Choose torches with 100-200-300 watt three lite bulbs, and shallow, white inside dense reflectors of 12-16 inches in diameter. They should be 66 inches high to top of reflector and placed 34 inches to right and left of keyboard center.

Best 4 and Best 5 almost met in the GCW office Saturday, both paying up. I refer to Lamar Staten, one of Uncle Nan's boys, and J. K. Costlow, one of Pony's boys.

Mrs. J. E. Gray who looks more like her son's sister than his mother, paid up last week for her GCW which she gets at Gore Springs.

Last week, in the story about the

new GHS cafeteria, we had a typographical error by printing the cafeteria cost \$5,500, when we should have had it as \$55,000. I guess, however, those who read the figures in the GCW remembered that John McEachin was City Manager, and figured John had got a REAL bargain for the City Schools.

We are this week getting out to our subscribers, some of these little polite notices reminding them of their status (according to OUR records) regarding their 'standing'.

The art of transmutation

Spurred by dreams of great wealth and power, alchemists of long ago frantically searched for a method of making gold in the laboratory. Fantastic chemical mixtures and processes were tried—all to no avail. Only in recent years have the dreams of the alchemist materialized. By subjecting platinum to neutron bombardment, gold can be produced in the laboratory. Because of the low yield and high expense involved, however, it is unlikely that gold produced in an atomic pile will ever replace that obtained in the conventional way. We are unable to make gold in our prescription department, but the medicines carried here are more powerful than all the gold in the world. We are prepared to help you whenever the need arises.

meet a man who
Knows

WHAT'RE THEY DOING DAD?
LAYING A BIGGER PIPE, I GUESS.
WHY?... WHAT'S IT FOR WHERE'S THE PIPE GOING?
WAIT A MINUTE, I'M NO EXPERT, BUT LET'S GO SEE A MAN WHO KNOWS.
- HI, BOB. THE KIDS HAVE A FLOCK OF QUESTIONS I THOUGHT YOU COULD ANSWER. BE GLAD TO TRY.
WHAT'S THAT BIG PIPE FOR AND WHERE'S IT GOING?
WELL, JERRY, THAT'S THE VALLEY GAS NEW MAIN LINE TO SERVE OUR WHOLE TOWN.

WHAT'S THE MATTER WITH THE OLD ONE?
NOT A THING RIGHT NOW, BUT THE VALLEY GAS FOLKS FIGURE THE TOWN WILL GROW EVEN MORE AND WE WANT TO BE READY WITH BETTER SERVICE FOR HOMES, STORES AND FACTORIES.
I'M CURIOUS, TOO! HOW DO YOU FOLKS FIGURE THE SIZE OF OUR NEW LINE OUGHT TO BE?
AND MR. LANE, HOW DO YOU FIGURE THINGS LIKE WHERE TO PUT IT AND HOW DEEP?
THAT'S WHERE EXPERIENCE AND KNOW-HOW AT VALLEY GAS REALLY COUNT.
YOU MEAN SPECIAL KNOW-HOW LIKE A FARMER OR MECHANIC OR ENGINEER HAS TO HAVE?
THAT'S RIGHT, AND WE'RE PROUD OF THE RECORD OF GAS OPERATING EXPERIENCE SO MANY FOLKS AT VALLEY GAS HAVE BUILT THRU MISSISSIPPI. A TOTAL OF 3,515 MILE YEARS STANDING BEHIND YOUR DEPENDABLE GAS SERVICE.
